

# POLISHED KITCHEN

D E S I G N S

Hi, we are Sarah Henshall and Amy Betsworth – the co-directors of Polished Kitchen Designs in Sussex.

With a joint 10 years of kitchen showroom experience, we are dedicated to providing you with the stunning kitchen that you've always dreamed of.

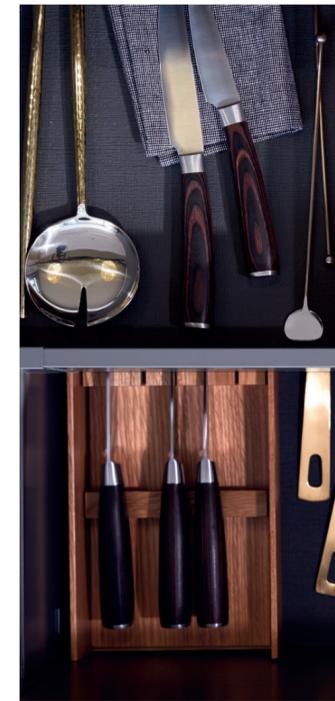

We aim to provide the outstanding quality that the big brands often don't, and the competitive prices that independent showrooms cannot.

We will be with you throughout the whole design and fitting process, giving you the service and support that you need when redesigning the heart of your home.

“We found Sarah and Amy really easy to work with. The kitchen was installed with minimum fuss. We now have a stunning family kitchen which looks amazing and is very functional. I would thoroughly recommend using this company.”

*Jo Brice, Cuckfield.*

## THE PROCESS

We offer a full design, supply and installation service within the Sussex area. Take a look at our detailed process below so you know what to expect when designing your new kitchen with us.

Fantastic work by everyone at Polished Kitchen Designs on my new kitchen. Their hard work, design and organisation was great. The house has been transformed!

*Clive Walker, Horsham*

Contact us via phone, email or our website to discuss your requirements and to book your appointment.

We meet with you in your home to discuss your exciting project and take all the necessary measurements. This usually takes 1.5 - 2 hours so we can fully understand your brief and vision.

We aim to have your design finished within a week of meeting you. When the design is ready, we will email you one HD image of our proposed concept for your space, along with an approximate cost for the kitchen.

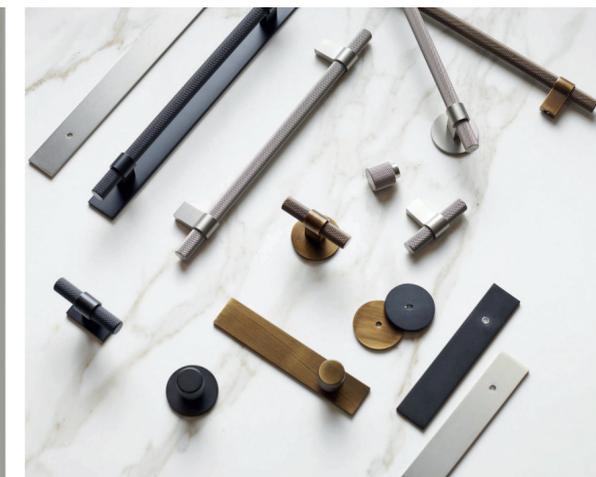

Once we've had your feedback, it's time for the fun bit! We will book another site visit with you to present your design in full along with various samples and materials for you to start personalising your kitchen style. This is also a good opportunity to discuss all associated costs and tailor your design if needed.

When the design and materials have been finalised we arrange an installation survey with our recommended fitter for your project. We will then discuss all your installation requirements (tiling, decorating, electrics, plumbing, etc) so they can provide you with an accurate installation quote.

We will arrange a final design meeting with you where we run through the full design and costs of the kitchen project. Once this is all agreed we ask for a deposit payment so we can start ordering your kitchen and book your installation date with our fitter.

## FANCY A SHOWROOM VISIT?

The reason we can be so competitive is that we don't have a showroom. This means our savings can be passed on to you, our client, so the money you pay goes straight on your kitchen - not on the upkeep of our premises and kitchen displays! However, we appreciate some clients do like the showroom experience so we can take you to our suppliers £1.2 million state of the art showroom near Windsor. Here you will experience a VIP day where you will find all the inspiration you need to start designing your dream kitchen with us.
